Covid-19: Leadership Challenge?

The Tyranny of “Or” Versus the Genius of “And”

- The Tyranny of “or” is the rational view that cannot easily accept paradox..cannot live with two seemingly contradictory forces at the same time. It must be A or B, but not both.
- The Genius of “And” is to embrace both of the extremes at the same time. This is not just a question of balance. Balance implies 50-50, going to the midpoint. Visionary leaders did not seek the gray of balance, but were determined to be distinctly both A and B at the same time.
